Syed Ali Zain Naqvi

(Cyber Security Project Coordinator and Educator | Linkedin.com/in/syedalizain033)

Syed Ali Zain Naqvi is a highly experienced and accomplished Cyber Security professional with a strong focus on project coordination and education. With an extensive background in the field, Zain brings a wealth of knowledge and expertise to training programs at Reskills.com.

With over five years of experience in conducting trainings for individuals ranging from school students to professionals and business people, Zain has established themselves as a prominent figure in the Cyber Security community in Pakistan. Their expertise spans various domains, including network security, ethical hacking, penetration testing, malware analysis, and social security for non-technical individuals.

Throughout their career, Zain has successfully assisted numerous organizations in strengthening their security posture through vulnerability identification, the development of robust defense strategies, and the provision of actionable recommendations. Notably, Zain has made significant contributions to companies such as LogiTech and currently serves as the Cyber Security Project Coordinator at Trillium Security. In this role, Zain leads a team of 30+ professionals and manages over 100 active projects for national and international clients, ensuring the delivery of high-quality security solutions.

Beyond their professional achievements, Zain is actively involved in community engagement and education initiatives. They have provided training to over 6,000 students and professionals and collaborated with esteemed organizations such as Google, HackerOne, Microsoft Students Ambassador community, Github community, and AWS community Pakistan chapter. Additionally, Zain has played an instrumental role in organizing technology events for local forums and small cities.

Zain's dedication to the advancement of women in Cyber Security is commendable. They are currently working on a project aimed at training and empowering 1,000+ women with hands-on skills in Cyber Security by 2024. This initiative involves collaborations with MSLA Women Tech Hub and Women Tech House, highlighting Zain's commitment to reducing gender disparities in the field.

Zain is also the founder of Secure Pwn, a startup that provides Cyber Security services and affordable professional courses. With a focus on increasing the participation of

women in the field, Secure Pwn aims to bridge the gap and create opportunities for aspiring professionals.

As a trainer at Reskills.com, Zain is dedicated to equipping learners with the necessary skills and mindset to excel in the ever-evolving field of Cyber Security. They continuously stay updated with the latest industry trends, emerging threats, and cutting-edge technologies to deliver relevant and up-to-date training content suitable for both technical and non-technical backgrounds.

Whether you are a novice looking to enter the world of Cyber Security or a seasoned professional aiming to enhance your skills, Zain is a trusted guide. Join their training programs at Reskills.com and embark on a transformative learning journey that will prepare you for the challenges and opportunities in the dynamic field of Cyber Security.
