# NEHA HAFEEZ

## **BIOGRAPHY:**

I am Neha Hafeez, an accomplished trainer and distinguished Gold and EMEA Lead at Microsoft. With a profound passion for technology and expertise in the field of Machine Learning, I have made significant contributions to the industry.

## **EXPERTISE:**

My expertise lies in Machine Learning, with a deep understanding of data engineering and data science. I possess comprehensive knowledge that enables me to deliver exceptional training and guidance to individuals and organizations. Throughout my career, I have successfully implemented cutting-edge techniques to solve complex problems, showcasing my proficiency in the field.

## **ACHIEVEMENTS:**

I am proud to have achieved notable milestones throughout my career. As a sought-after speaker and trainer, I have conducted global sessions at Microsoft, sharing invaluable insights and best practices in data engineering and data science. I take pride in my ability to simplify intricate concepts and foster professional growth among my audience. Additionally, I have provided career counseling services, assisting individuals in making informed decisions about their career paths.

## **RELEVANT DETAILS:**

My role at Microsoft extends beyond training and leadership. I have actively contributed to impactful research projects within the organization. Notably, I have been involved in research on Youth Welltech, focusing on understanding and addressing the technological and well-being challenges faced by the younger generation. My dedication to relevant research showcases my commitment to making a positive impact in the industry.

My training profile exemplifies my unwavering dedication to empowering others through knowledge sharing. With profound expertise in Machine Learning, along with my achievements as a trainer and speaker, I have solidified my reputation in the industry. Furthermore, my involvement in meaningful research underscores my commitment to driving positive change.
