ABOUT ME

I'm currently pursuing my education in Doctor of Philosophy (PHd) major in Educational Psychology. I started my training journey since 2019 focusing in soft skills / interpersonal skills and more to non-technical programme, and now become a certified & professional trainer. Knowing that this field is giving me more opportunity and lead me in achieving my goals, i took this as my career by adding on more professional course, i.e Mental Health Coach, Neuro-Psychology Practitioner & NLP Practitioner. I have conducted various topics via physical or virtual training . Moving forward, im looking at venturing out more clients in different sectors to deliver & train people by giving an accurate and high-impact result.

MY TIMELINE
