Average rating

4.6 out of 5.0

The overall experiences of the Effective Sales Program conducted by Mr Will has been nothing but fantastic. He provided clear direction to participants by walking through with them on the Sales Process and even highlighted the challenges mentioned by participants and constantly engage with them to better understand the situation to assist them further. He is an amazing Trainer who genuinely puts participants learning and development as his utmost priority. Will definitely recommend this training program to our other associates.
